

KITTICO CAT RESCUE

We are working in your area ...

1. To help reduce the stray cat population in your neighborhood through neutering and spaying feral (not tame) or tame cats.
2. To help the people in the neighborhood who feed feral cats but yet lack the knowledge or tools to catch these animals so that they can be neutered or spayed. **KITTICO will loan traps, neuter or spay the cats, and return them to where they were captured so that they can live a healthy NON-producing life.**
3. And to help individuals who can't afford to have their tame cats spayed/neutered; we assist with arranging for low cost or no cost spay/neuter services for those who truly need our help.

Please call this number: 214/ 826-6903 to contact a volunteer; or contact the person listed below who is in charge of your neighborhood;

SOME CAT FACTS

1. Feral cats are abandoned, dumped, or lost domestic cats that have reverted to the wild to survive. Offspring of these cats are born feral.
2. **Every spayed or neutered cat makes a huge difference.**
In seven years, one female cat and her offspring can produce 420,000 cats.
3. Spayed/neutered cats **do not**:
Roam ... Spray ... Fight ... Breed ... Spread Diseases.
4. 400 cats and dogs are killed at shelters every 60 seconds in the U.S. because there aren't enough homes.

THEY DO:

- Keep other cats from entering their territory.
- Destroy mice, rats and snakes.
- Once they have been spayed/neutered, they are very beneficial and peaceful animals; normally only coming out at night. These sweet cats deserve a decent, good life with a reliable food source. They are the victims of irresponsible human beings; *they just need a chance.*

We can make this a humane, win-win situation. **Call Today.**
